

## Computer Awareness Question Bank : v4

---

### Computer Awareness Quiz (1-195)

1. An electronic device, operating under the control of information, that can accept data, process the data, produce output & store the results for future use is \_\_\_\_\_

- (a) Input
- (b) Computer
- (c) Software
- (d) Hardware
- (e) None of these

2. The term "host" with respect to the internet, means \_\_\_\_\_.

- (a) A computer that is a stand alone computer
- (b) A computer reserved for use by the host
- (c) A computer that is connected to the internet
- (d) A large collection of computers
- (e) None of these

3. The piece of hardware that converts computer's digital signal to an analog signal that can travel over telephone lines is called a \_\_\_\_\_.

- (a) Tower
- (b) Red wire
- (c) Modem
- (d) Bridge
- (e) None of these

4. CPU can directly understand this language.

- (a) C
- (b) C++
- (c) Assembly
- (d) Java
- (e) None of these

5. A computer program used for business applications is \_\_\_\_\_.

- (a) LOGO

- (b) COBOL
- (c) BASIC
- (d) FORTRAN
- (e) None of these

6. Which language is CPU dependent ?

- (a) Assembly
- (b) C
- (c) JAVA
- (d) Both 1 & 2
- (e) None of these

7. This part of operating system manages the essential peripherals, such as the key board, Screen, disk drives and parallel and serial ports \_\_\_\_\_.

- (a) Basic input/output
- (b) Secondary System
- (c) Peripheral System
- (d) Marignal System
- (e) None of these

8. Which command allows you to reduce fragments of file and optimize the performance of disk ?

- (a) Scandisk
- (b) Diskcomp
- (c) Chkdsk
- (d) Derfrag
- (e) None of these

9. The most recent version of the Mac OS is based on the \_\_\_\_\_ operating system.

- (a) Windows
- (b) Linux
- (c) Unix
- (d) CMOS
- (e) None of these

10. Features of windows XP professional includes \_\_\_\_\_ ?

## Computer Awareness Question Bank : v4

---

- (a) remote desktop support
- (b) System restore
- (c) advanced networking features
- (d) All of the above
- (e) None of these

**11.** Data can be arranged in a worksheet in an easy to understand manner using.

- (a) Auto formatting
- (b) Applying Styles
- (c) Changing fonts
- (d) Synchronisation
- (e) None of these

**12.** Which of the following should be used if all the slides in the presentation to have the same 'look'?

- (a) The slide layout option
- (b) Add a slide option
- (c) Outline view
- (d) A Presentation design template
- (e) None of these

**13.** How is it to create a uniform appearance by adding a background image to all slides ?

- (a) Create a template
- (b) Edit the slide master
- (c) Use the auto correct wizard
- (d) All of the above
- (e) None of these

**14.** An inter-company network which used to distribute information, documents, files and databases, is \_\_\_\_\_.

- (a) LAN
- (b) WAN
- (c) MAN
- (d) Extranet
- (e) None of these

**15.** Which is the network strategy used

extensively by the internet ?

- (a) peer-to-peer network system
- (b) Stand -alone network system
- (c) Local Area network system
- (d) Client /server network system
- (e)None of these

**16.** Which of the following can't spread Virus ?

- (a) An e-mail with attachment
- (b) A plain text mail
- (c) Downloading files over the web
- (d) A per drive use
- (e) None of these

**17.** Which of the following is not a virus ?

- (a) Blaster
- (b) Creeper
- (c) Mellisa
- (d) Kaspersky
- (e) none of these

**18.** Unwanted repetitious messages, such as unsolicited bulk e-mails is known as.

- (a) Spam
- (b) Trash
- (c) Calibri
- (d) Courier
- (e) None of these

**19.** Le-Hard virus is effect of a \_\_\_\_\_.

- (a) Command.com
- (b) Hardware
- (c) Software
- (d) Application
- (e) None of these

**20.** Which of the following is not a popular Anti-Virus software ?

## Computer Awareness Question Bank : v4

---

- (a) Kaspersky  
(b) Symantec  
(c) Trend Micro  
(d) Blaster  
(e) None of these
- 21.** A result of a computer Virus can not lead to.  
(a) Disk Crash  
(b) Mother Board crash  
(c) Corruption  
(d) Deletion of files  
(e) None of these
- 22.** All of the following are example of real security and privacy risks except.  
(a) Hackers  
(b) Spam  
(c) Viruses  
(d) Identify theft  
(e) None of these
- 23.** Which of the following is a popular Dos based spread Sheet ?  
(a) Excel  
(b) Word  
(c) Smart cell  
(d) Lotus 1-2-3  
(e) None of these
- 24.** Ethernet, LAN, Token Ring, and token Bus are types of \_\_\_\_\_.  
(a) WAN  
(b) Communication channels  
(c) LAN  
(d) Physical Medium  
(e) None of these
- 25.** An e-mail account includes a storage area, often called a \_\_\_\_\_.  
(a) Attachment  
(b) Hyperlink  
(c) Mailbox  
(d) IP address  
(e) None of these
- 26.** What is the name of the software that allows us to browse through web pages called ?  
(a) Browser  
(b) Mail client  
(c) FTP client  
(d) Messenger  
(e) None of these
- 27.** Most world wide web pages contain commands in the language \_\_\_\_\_.  
(a) NIH  
(b) URL  
(c) HTML  
(d) IRC  
(e) None of these
- 28.** Fire walls are used to protect against \_\_\_\_\_.  
(a) Unauthorised Attacks  
(b) Virus Attacks  
(c) Data Driver Attacks  
(d) Fire Attacks  
(e) None of these
- 29.** "Trend Micro" is a \_\_\_\_\_ ?  
(a) Virus program  
(b) Anti virus program  
(c) Application  
(d) All of the above  
(e) None of these
- 30.** The most important powerful computer in a typical network is \_\_\_\_\_.  
(a) Desktop  
(b) Network Client  
(c) Network Server  
(d) Network Station

## Computer Awareness Question Bank : v4

---

(e) None of these

(e) None of these

**31. Invention of the integrated circuit led to the invention of \_\_\_\_\_.**

- (a) INTEL 486 processor
- (b) Pentium -4 processor
- (c) Micro processor
- (d) Fortran language
- (e) None of these

**36. Which of the following manages computer resources?**

- (a) ALU
- (b) BUS
- (c) Control Unit
- (d) I/O unit
- (e) None of these

**32. Language used in a computer that is similar to the languages of humans and is easy to understand is referred to as \_\_\_\_\_.**

- (a) Source code
- (b) High level language
- (c) Machine language
- (d) Object code
- (e) None of these

**37. In addition to the basic typing keys, desktop and notebook computer key boards include a \_\_\_\_\_.**

- (a) Editing
- (b) Navigation
- (c) Locked
- (d) docked
- (e) None of these

**33. ALU works on the instructions and data held in the \_\_\_\_\_.**

- (a) Note book
- (b) Registers
- (c) Copy pad
- (d) I/o devices
- (e) None of these

**38. MICR Technology used for clearance of cheques by banks refers to \_\_\_\_\_.**

- (a) Magnetic Ink Character Recognition
- (b) Magnetic Intelligence Character Recognition
- (c) Magnetic information cable Recognition
- (d) Magnetic Insurance cases Recognition
- (e) None of these

**34. The \_\_\_\_\_ Key and the \_\_\_\_\_ key can be used in combination with other keys to perform Short Cuts and Special tasks.**

- (a) Control, Alt
- (b) Function, toggle
- (c) Delete, insert
- (d) Caps lock, Num lock
- (e) None of these

**39. A modem that cannot be moved from its position is called \_\_\_\_\_.**

- (a) Intelligent Modem
- (b) Acoustic Coupler
- (c) Direct connect
- (d) Fixed modem
- (e) None of these

**35. A computer tower is not \_\_\_\_\_.**

- (a) A CPU
- (b) Hardware
- (c) The Heart of the computer
- (d) Peripheral

**40. A bridge recognizes addresses of \_\_\_\_\_.**

- (a) Layer 1
- (b) Layer 2
- (c) Layer 3
- (d) Layer 4

## Computer Awareness Question Bank : v4

---

(e) None of these

(e) None of these

**41. Programming language built into user programs such as word and Excel are known as.**

- (a) 4 GLS
- (b) Macro languages
- (c) Object Oriented languages
- (d) Visual programming languages
- (e) None of these

**46. Computer's basic architecture was developed by \_\_\_\_\_.**

- a) Blaise Pascal
- b) Jordan Murn
- c) Charles Babbage
- d) John Van Neumann
- e) None of these

**42. A convolutional code that is prone to catastrophic error propagation is.**

- (a) Mnemonics
- (b) Gray code
- (c) Machine code
- (d) Catastrophic code
- (e) None of these

**47. In production of I.C. chip of computer what is needed in the following \_\_\_\_\_.**

- a) Platinum
- b) Gold
- c) Silicon
- d) Iron
- e) Silver

**43. When a language has the capability to produce new data types, it is said to be.**

- (a) Reprehensible
- (b) Encapsulated
- (c) Overloaded
- (d) Extensible
- (e) None of these

**48. Analog computer is**

- a) Communicate at low level
- b) A machine which works on data which is always changeable
- c) Communicate at high level
- d) All of these
- e) None of these

**44. Computer language used for scientific calculations \_\_\_\_\_.**

- (a) LOGO
- (b) FORTRAN
- (c) C++
- (d) BASIC
- (e) None of these

**49. Father of computer is**

- a) John Von Neumann
- b) Lady Ada Lovelae
- c) Charles Babbage
- d) J.P. Eckert & J.W. Mauchly
- e) Blaise Pascal

**45. Which of the following is a programming language for creating special programs like applets ?**

- (a) JAVA
- (b) Cable
- (c) Net
- (d) Domain name

**50. Abacus was developed in \_\_\_\_\_.**

- a) India
- b) China
- c) USA
- d) Japan
- e) Sri Lanka

## Computer Awareness Question Bank : v4

---

**51. In which generation of computer was 'Transistor' introduced?**

- a) 1st Generation
- b) 3rd Generation
- c) 4th Generation
- d) 2nd Generation
- e) 5th Generation

**52. Who developed 'Integrated Chip'?**

- a) Charles Babbage
- b) J S Kilbi
- c) Blaise Pascal
- d) John Mauchly
- e) None of these

**53. Main electronic part of in first generation computer was \_\_\_\_\_.**

- a) Transistor
- b) Micro Processor.
- c) Vacuum Tubes
- d) Large Scale Integrated Circuits
- e) None of these

**54. What is the full form of 'ENIAC'?**

- a) Electronic Numerical Integrator and Calculator
- b) Electronically Numerical Integrator and Computer
- c) Electronic Numerical Integrator and Computer
- d) Electronically Numerical Integrator and Calculator
- e) None of these

**55. In which generation did multiprogramming start?**

- a) 5th Generation
- b) 2nd Generation
- c) 1st Generation
- d) 3rd Generation
- e) 4th Generation

**56. In database, a field is a**

- a) label
- b) table of information
- c) group of related records
- d) category of information
- e) None of these

**57. What is Gigabyte?**

- a) Flash Memory
- b) An optical storage medium capable of storing vast amount of information
- c) Roughly a trillion bytes
- d) Roughly a million bytes
- e) Roughly a billion bytes

**58. Find the correct setoff three types of data found in a spreadsheet.**

- a) Data, words, numbers
- b) Equations, data, numbers
- c) Words, numbers, labels
- d) Numbers, formulas, labels
- e) None of these

**59. For creating a document, you use \_\_\_\_\_ command at file menu.**

- a) open
- b) close
- c) new
- d) save
- e) None of these

**60. The quickest and easiest way in Word, to locate a particular word or phrase in a document is to use the \_\_\_\_\_ command.**

- a) Replace
- b) Find
- c) Lookup
- d) Search
- e) None of these

**61. A computer hard disk is a/an**

- a) arithmetic and logical unit

## Computer Awareness Question Bank : v4

---

- b) computer software
- c) operating system
- d) computer hardware
- e) None of the these

**62. Which of the following represents the instructions that tell the computer what to do? It can also be taken as another name for software.**

- a) programs
- b) CPU
- c) options
- d) folder
- e) None of these

**63. Which of the following lets you leave a screen or program?**

- a) Boot
- b) Programs
- c) Exit
- d) Text
- e) None of these

**64. A clerk in a bank has to access data in customer account. Logical access control for these users would be**

- a) use of individual passwords
- b) use of an Account Receivable Section password
- c) use of individual passwords plus separate access
- d) Can't say
- e) None of these

**65. The first line of the "C" program contains a/an \_\_\_\_\_, indicating by "#include".**

- a) preprocessing directive
- b) processing directive
- c) main directive
- d) new line character
- e) None of these

**66. KDE and GNOME are two main**

- a) Operating System
- b) System Board
- c) Graphical User Interface
- d) Both (a) and (b)
- e) None of these

**67. \_\_\_\_\_ controls the way in which a computer system functions and provides name by which can interact with the computer?**

- a) The platform
- b) Application software
- c) Operating system
- d) The motherboard
- e) None of these

**68. The technique that extends storage capacities of main memory beyond the actual size of the main memory is called**

- a) multitasking
- b) virtual memory
- c) multiprocessing
- d) multiprogramming
- e) switching

**69. A program that embedded you to perform calculations involving rows and columns of numbers is called a**

- a) spreadsheet program
- b) word processor
- c) graphics package
- d) window
- e) None of these

**70. What is the purpose of Software Documenting?**

- a) Use and maintenance of software
- b) To sell software at a handsome price
- c) To sell software to many customers
- d) To show its importance

## Computer Awareness Question Bank : v4

---

e) None of these

**71. To insert copy of the clipboard contents, whatever was last cut or copied at the insertion point, you have to**

- a) paste
- b) stick in
- c) fit in
- d) push in
- e) None of these

**72. This command is used to remove text or graphics from a document. The information is then stored on a clipboard so you can paste it**

- a) chop
- b) cut
- c) clip
- d) cart away
- e) None of these

**73. SMTP is responsible (for)**

- a) sending e-mail
- b) accessing any e-mail
- c) where e-mails are ready to be sent
- d) where e-mails come
- e) None of these

**74. \_\_\_\_\_ are words that a programming language has set aside for its own use.**

- a) Control words
- b) Reserved words
- c) Reserved keys
- d) Control structures
- e) None of these

**75. Which type of switching uses the entire capacity of a dedicated link?**

- a) Circuit Switching
- b) Virtual Circuit Packet Switching
- c) Datagram Packet Switching

d) Message Switching

e) None of these

**76. The \_\_\_\_\_ button on the Quick Access Toolbar allows you to cancel your recent commands or actions.**

- a) search
- b) cut
- c) document
- d) undo
- e) none of these

**77. Which of the following files plays an important role in booting DOS?**

- a) DOSKEY.EXE
- b) MSCDEX.EXE
- c) CONFIG.SYS
- d) DRIVER.SYS
- e) None of these

**78. \_\_\_\_\_ allows wireless mobile devices to access the Internet and its services such as the Web and e-mail.**

- a) TCP/IP
- b) Ethernet
- c) WAP
- d) Token ring
- e) none of these

**79. which of the following does 'DOS' floppy disk not have?**

- a) A Boot Record
- b) A File Allocation Table
- c) A Root Directory
- d) Virtual Memory
- e) BIOS

**80. In \_\_\_\_\_, each user uses a local input/output device.**

- a) time sharing mode
- b) interactive mode

- c) batch processing mode
- d) all the above modes
- e) none of these

**81. Operation code is also known as \_\_\_\_\_ code.**

- a) bar
- b) object
- c) order
- d) source
- e) target

**82. Properly arranged data is called**

- a) field
- b) word
- c) file
- d) information
- e) item

**83. A device operating at network layer is called**

- a) bridge
- b) router
- c) gateway
- d) hub
- e) repeater

**84. CRAYX-MP belongs to \_\_\_\_\_ generation.**

- a) first
- b) second
- c) third
- d) fourth
- e) fifth

**85. The data on the tracks of a magnetic disk is written as**

- a) zero or one
- b) up or down
- c) high or low voltage
- d) high or low data rate
- e) tiny magnetic spots

**86. Which of the following is graphics solution for word processors?**

- a) Clipart
- b) Wordart
- c) Dropcap
- d) All the above
- e) None of these

**87. Unix operating system was developed by**

- a) Walter Baatain
- b) John Burdeen
- c) Ken Thompson
- d) All the above
- e) None of these

**88. Which of the following is represented by cluster in a hard disk?**

- a) Group of sectors
- b) Total number of sectors in a disk
- c) Total number of tracks
- d) All the above
- e) None of these

**89. Airlines reservation system is a typical example of**

- a) Batch processing
- b) On-line processing
- c) Real-time processing
- d) All the above
- e) None of these

**90. Which of the following memories is often used in a typical computer operation?**

- a) RAM
- b) ROM
- c) FDD
- d) HDD
- e) None of these

## Computer Awareness Question Bank : v4

---

**91. To detect, locate and remove errors in a program and/or malfunctions in equipment is to**

- a) Compile
- b) Debug
- c) Interpret
- d) DSS
- e) None of these

**92. A program written in a high-level language is**

- a**
- a) Compiled program
  - b) Source program
  - c) Objective program
  - d) All the above
  - e) None of these

**93. \_\_\_\_\_ punctuation ends most lines of C code.**

- a) ' (single quote)
- b) ; (semi-colon)
- c) . (dot)
- d) : (colon)
- e) " (double quote)

**94. \_\_\_\_\_ register holds the contents of accessed memory ward.**

- a) I/O
- b) Instruction
- c) Memory buffer
- d) Memory address
- e) Accumulation

**95. Taskbar does not have**

- a) Start button
- b) System tray
- c) Quick launch bar
- d) Open program
- e) None of these

**96. You can do transactions on internet using your bank account. This is called**

- a) Banking
- b) Online banking
- c) Offline banking
- d) Transactions
- e) None of these

**97. Two basic types of OS are**

- a) batch and interactive
- b) sequential and real-time
- c) batch and time-sharing
- d) sequential and direct
- e) batch and sequential

**98. To prepare a presentation/slide show which application is commonly used?**

- a) photoshop
- b) PowerPoint
- c) outlook Express
- d) internet Explorer
- e) All of these

**99. RATS stands for**

- a) Regression Analysis Time Sharing
- b) Regression Analysis of Time Series
- c) Read Analysis Time Sharing
- d) Read Analysis Time Series
- e) None of these

**100. EBCDIC can code up to how many different characters?**

- a) 8
- b) 16
- c) 32
- d) 64
- e) 256

**101. What is a Firmware?**

- a) A program started in RAM
- b) A program started in a file
- c) A program started in boot sector

## Computer Awareness Question Bank : v4

---

- d) A program started in ROM
- e) None of these

**102. Magnetic tape is not practical for applications where data must be quickly recalled, because tape is**

- a) a random-access medium
- b) a sequential access medium
- c) a read-only medium
- d) fragile and easily damaged
- e) an expensive storage medium

**103. Computer systems comprise**

- a) hardware, programs, information, people and networks
- b) hardware, software, procedures, networks and people
- c) hardware, programs, information, people and procedures
- d) hardware, programs, processors, procedures, networks and people
- e) hardware, programs, processors, procedures and people

**104. Computers use the \_\_\_\_\_ number system to store data and perform calculations.**

- a) Decimal
- b) Hexadecimal
- c) Octal
- d) Binary
- e) None of these

**105. Arithmetic operations**

- a) involve matching one data item to another to determine if the first item is greater than, equal to or less than the other item
- b) sort data items according to standard, predefined criteria in ascending or descending order
- c) use conditions with operations such as AND, OR and NOT

- d) include addition, subtraction, multiplication and division
- e) None of these

**106. The \_\_\_\_\_ key and the \_\_\_\_\_ key can be used in combination with other keys to perform shortcuts and special tasks.**

- a) Control, Alt
- b) Function, Toggle
- c) Delete, Insert
- d) Caps Lock, Num Lock
- e) None of these

**107. To move to the previous worksheet, we press**

- a) Alt + PgUp
- b) Ctrl + PgUP
- c) Ctrl + PgDn
- d) Shift + Tab
- e) None of these

**108. Changing cardinalities in a database is**

- a) a common database design task
- b) a rare database design task, but does occur
- c) a database design task that never occurs
- d) is impossible to do, so a new database must be constructed and the data may be moved into it
- e) None of these

**109. Which of the following is not the major function of a computer?**

- a) Processing data into information
- b) Storing data or information
- c) Gathering data
- d) Analysing data or information
- e) None of these

**110. What does SNMP stand for?**

- a) Simple Network Mail Protocol
- b) Single Network Mail Protocol
- c) Single Network Message Protocol

## Computer Awareness Question Bank : v4

---

- d) Simple Network Management Protocol
- e) None of these

**111. Which of the following is NOT a computer programming language?**

- a) C
- b) C++
- c) Java
- d) COBOL
- e) Microsoft

**112. When determining the overall objective of the project, the resources required, and the persons or team who work on the project, you are in the \_\_\_\_\_ stop of developing a multimedia presentation.**

- a) Planning
- b) Designing
- c) Creating
- d) Supporting
- e) None of these

**113. Copyrighted software that can be used for free is**

- a) Shareware
- b) Freeware
- c) Groupware
- d) Email
- e) None of these

**114. 255.255.0.0 is default mask of**

- a) Class A networks
- b) Class B networks
- c) Class C networks
- d) Class D networks
- e) None of these

**115. When your computer stops working suddenly, it is referred to as a**

- a) Crash
- b) Die

- c) Death
- d) Penalty
- e) None of these

**116 .Which of the following cables can transmit data at high speeds?**

- a) Flat cables
- b) Coaxial cable
- c) Optic fiber cable
- d) Twisted pair cable
- e) UTP cable

**117. MySQL is\_\_\_\_\_?**

- a) a hierarchical model
- b) a RDBMS
- c) a relational model
- d) a database scheme
- e) None of these

**118. Verification of a Login name and password is known as\_\_\_\_\_.**

- a) Configuration
- b) Accessibility
- c) Authentication
- d) Logging in
- e) None of these

**119. Which of the following will you require to hear music on your computer?**

- a) Video Card
- b) Sound Card
- c) Mouse
- d) Joy Stick
- e) None of these

**120. Which of the following computer language is a mathematically oriented languages used for scientific problems?**

- a) FORTRAN
- b) COBOL
- c) LISP

## Computer Awareness Question Bank : v4

---

- d) PROLOG
- e) APPLE

- c) Hours
- d) seconds
- e) None of these

**121. Father of 'C' programming language\_\_\_\_\_.**

- a) Dennis Ritchie
- b) Prof JhonKemeny
- c) Thomas Kurtz
- d) Bill Gates
- e) None of these

**122. Bank Exams Today (www.bankexamstoday.com) is a \_\_\_\_\_.**

- a) Blog
- b) Portal
- c) Organization that allocates web addresses
- d) Apps
- e) None of these

**123. Time during which a job is processed by the computer is\_\_\_\_\_.**

- a) Execution Time
- b) Delay Time
- c) Real Time
- d) Waiting Time
- e) None of these

**124. Which mouse uses laser rays for the movement of cursor.**

- a) Mechanical mouse
- b) Optical mouse
- c) Magnetic mouse
- d) Normal mouse
- e) None of these

**125. Disk access times are measured in \_\_\_\_\_ ?**

- a) Minute
- b) Milliseconds

**126. A Web site address is a unique name that identifies a specific \_\_\_\_\_ on the Web.**

- a) Web browser
- b) Web site
- c) PDA
- d) Link
- e) None of these

**127. A character if information is represented by a(n) \_\_\_\_\_.**

- a) Byte
- b) Bit
- c) Field
- d) Attribute
- e) None of these

**128. An example of a telecommunications device is a**

- a) Keyboard
- b) Mouse
- c) Printer
- d) Modem
- e) None of these

**129. \_\_\_\_\_ is a procedure that requires users to enter an identification code and a matching password.**

- a) Paging
- b) Logging on
- c) Time-sharing
- d) Multitasking
- e) None of these

**130. Which device is used as the standard pointing device in a Graphical User Environment?**

- a) Keyboard

- b) Mouse
- c) Joystick
- d) Track ball
- e) None of these

**131. The simultaneous execution of two or more instructions is called**

- a) Sequential access
- b) Reduced instruction set computing
- c) Multiprocessing
- d) Disk mirroring
- e) None of these

**132. Multiprogramming systems:**

- a) are easier to develop than single programming systems.
- b) execute each job faster.
- c) execute more jobs in the same time period.
- d) use only one large mainframe computer.
- e) None of these

**133. Which device can understand the difference between data and programs?**

- a) Input device
- b) Output device
- c) Memory
- d) Microprocessor
- e) None of these

**134. Which of the following devices has a limitation that we can only read it but cannot erase or modify it?**

- a) Tape drive
- b) Hard disk
- c) Compact disk
- d) Floppy disk
- e) None of these

**135. Which of the following is not an output device?**

- a) Plotter

- b) Printer
- c) Monitor
- d) Touch screen
- e) None of these

**136. Which of the following is the smallest storage ?**

- a) Megabyte
- b) Gigabyte
- c) Kilobyte
- d) Terabyte

- e) None of these

**137. A computer's clock speed is measured in \_\_\_\_\_:**

- a) Gigabytes
- b) Bits
- c) Bytes
- d) Megahertz
- e) None of these

**138. The term gigabyte refers to :**

- a) 1024 bytes
- b) 128 kilobytes
- c) 1024 megabytes
- d) 1024 bits
- e) None of these

**139. Computer use \_\_\_\_\_ number system to store data and perform calculations.**

- a) Binary
- b) Octal
- c) Decimal
- d) Hexadecimal
- e) None of these

**140. A string of eight '0' & 1 s is called as \_\_\_\_\_:**

- a) Megabyte
- b) Bit

## Computer Awareness Question Bank : v4

---

- c) Kilobyte
- d) Byte
- e) None of these

**141. How many megabytes make gigabyte ?**

- a) 1024
- b) 128
- c) 532
- d) 256
- e) None of these

**142. Bit refers to a \_\_\_\_\_?**

- a) Computer language
- b) CPU instruction
- c) 0 or 1 value
- d) Digital representation of an alphabetic character ?
- e) None of these

**143. An octal number 237 is equal to the binary number \_\_\_\_\_:**

- a) 010011111
- b) 010111011
- c) 011101101
- d) 011000001
- e) None of these

**144. BPS stands for \_\_\_\_\_:**

- a) Blts per second
- b) Bytes per second
- c) Blts per system
- d) Blts per season
- e) None of these

**145. Digital computers use a \_\_\_\_\_ system to encode data and programs.:**

- a) Semiconductor
- b) Decimal
- c) Binary
- d) Hexa decimal

- e) None of these

**146. One megabyte equal approximately \_\_\_\_\_?**

- a) 1000 bits
- b) 100 bytes
- c) 1 million bytes
- d) 1 million bits
- e) None of these

**147. How many bits, does a nibble signify ?**

- a) 4
- b) 8
- c) 16
- d) 32
- e) None of these

**148. What digits are representative of all binary numbers ?**

- a) 0
- b) 1
- c) 5
- d) Both 0 & 1
- e) None of these

**149. An example of a telecommunication device is a \_\_\_\_\_:**

- a) Keyboard
- b) Mouse
- c) Modem
- d) Printer
- e) None of these

**150. Ethernet is the example of \_\_\_\_\_?**

- a) LAN
- b) WAN
- c) MAN
- d) Wi-Fi
- e) None of these

## Computer Awareness Question Bank : v4

---

**151. Computers connected to a LAN can \_\_\_\_\_:**

- a) run faster
- b) go on line
- c) share information and/or share peripheral equipment
- d) E-mail
- e) None of these

**152. What is 'M' stands for in MAN ?**

- a) MAGNETIC
- b) Metropolitan
- c) Mega
- d) Mass
- e) None of these

**153. Which of the following is not a type of WAN?**

- a) VAN
- b) PSDN
- c) PSTN
- d) ISDN
- f) DAN

**154. DSL is an example of a \_\_\_\_\_ connection:**

- a) Network
- b) Wireless
- c) Broad band
- d) Slow
- e) None of these

**155. A wireless network uses \_\_\_\_\_ waves to transmit signals ?**

- a) Mechanical
- b) radio
- c) Sound
- d) Magnehe
- e) None of these

**156. Network components are connected to the same cable in the \_\_\_\_\_ topology ?'**

- a) Star
- b) Ring
- c) Bus
- d) Mesh
- e) None of these

**157. Pathway that support communication among the various electronic components on the system board are called ?**

- a) Bus Lines
- b) Network line
- c) Logic paths
- d) Gateways
- e) None of these

**158. The linkage of computers with a communication system is called ?**

- a) Networking
- b) Pairing
- c) Interlocking
- d) Assembling
- e) None of these

**159. A web site address is a unique name that identifies a specific \_\_\_\_\_ on the web .**

- a) Web brower
- b) Web site
- c) PDA
- d) Link
- e) None of these

**160. The free abvailable known repair of software bug on internet is called :**

- a) Version
- b) Add on
- c) Tutorial
- d) FAQ
- e) Patch

**161. Which type of network would use phone lines ?**

## Computer Awareness Question Bank : v4

---

- a) WAN
- b) LAN
- c) WWAN
- d) Wireless
- e) None of these

**162. What is included in an e-mail address ?**

- a) Domain Name followed by user's Name
- b) User's Name followed by Domain Name
- c) User's Name followed by postal Address
- d) User's Name followed by street Address
- e) None of these

**163. When the network serves a small area of a building or group of building, it is known as.**

- a) WAN
- b) LAN
- c) WWW
- d) MAN
- e) None of these

**164. What is back up?**

- a) Adding more components to your network .
- b) Protecting data by copying it from the original source to a different destination
- c) Filtering old data from the new data
- d) Accessing data on tape
- e) None of these

**165. Sending an e-mail is similar to:**

- a) Writing a letter
- b) drawing a picture
- c) talking on the phone
- d) sending a package
- e) None of these

**166. What are .bas, .doc, and .htm examples of?**

- a) Protocols
- b) Domains
- c) Extensions
- d) Databases

- e) None of these

**167. Ctrl, shift and alt are called \_\_\_\_\_ keys.**

- a) Modifier
- b) Function
- c) Adjustment
- d) Alphanumeric
- e) None of these

**168. Which type of file is created by word processing programs ?**

- a) Worksheet file
- b) Storage file
- c) Database file
- d) Document file
- e) Graphical file

**169. Personal computers can be connected together to form a \_\_\_\_\_.**

- a) Server
- b) Network
- c) Super computer
- d) Enterprise
- e) None of these

**170. A modem**

- a) Translates analog signals from a computer into digital signals that can travel along conventional telephone lines.
- b) Translates digital signals from a computer into analog signals that, can travel along conventional telephone lines.
- c) Demodulates digital signals from a computer.
- d) Modulates signals from an analog telephone line.
- e) None of these

**171. Which of the following menu types is also called a drop-down menu?**

- a) Fly-but
- b) Cascading

## Computer Awareness Question Bank : v4

---

- c) Pop-up
- d) Pull-down
- e) None of these

**172. Data (information) is stored in computer as**

- a) Files
- b) Floppies
- c) Directories
- d) Matter
- e) None of these

**173. The central processing unit contains which of the following as a component?**

- a) Instruction Manipulation Unit
- b) Arithmetic Logic Unit
- c) Memory Regulation Unit
- d) Flow Control Unit
- e) None of these

**174. Memory unit is one part of \_\_\_\_\_.**

- a) Input device
- b) Output device
- c) Control unit
- d) Central processing unit
- e) None of these

**175. The process of writing out computer instructions is known as**

- a) Assembling
- b) Executing
- c) Coding
- d) Compiling
- e) None of these

**176. Data that is copied from an application is stored in the \_\_\_\_\_.**

- a) Driver
- b) Clipboard
- c) Terminal
- d) Prompt
- e) None of these

**177. Every component of your computer is either \_\_\_\_\_.**

- a) Software or CPU/RAM
- b) Input devices or output devices
- c) Application software or System Software
- d) Hardware or Software
- e) None of these

**178. A collection of interrelated records is called**

- a) Management information system
- b) Spreadsheet
- c) Database
- d) Text file
- e) None of these

**179. Which of the following is the storage area within the computer itself which holds data only temporarily as the computer processes instructions?**

- a) Hard disk
- b) Main Memory
- c) Control unit
- d) ROM
- e) None of these

**180. Codes consisting of bars or lines of varying widths or lengths that are computer-readable are known as \_\_\_\_\_.**

- a) A bar code
- b) An ASCII code
- c) A magnetic tape
- d) A light pen
- e) None of these

**181. A \_\_\_\_\_ contains specific rules and words that express the logical steps of an algorithm.**

- a) Programming language
- b) Programming structure

## Computer Awareness Question Bank : v4

---

- c) Syntax
- d) Logic chart
- e) None of these

**182. \_\_\_\_\_ is a set of keywords, symbol, and a system of rules for constructing statements by which humans can communicate the instructions to be executed by a computer.**

- a) Computer program
- b) Programming language
- c) Assembler
- d) Syntax
- e) None of these

**183. The general term “peripheral equipment” is used for \_\_\_\_\_.**

- a) Any device that is attached to a computer system
- b) Large-scale computer system
- c) A program collection
- d) Other office equipment not associated with a desktop computer
- e) None of these

**184. If a memory chip is volatile, it will \_\_\_\_\_.**

- a) Explode if exposed to high temperatures
- b) Lose its contents if current is turned off
- c) Be used for data storage only
- d) Be used to both read and write data
- e) None of these

**185. \_\_\_\_\_ is the process of finding errors in software code.**

- a) Compiling
- b) Assembling
- c) Interpreting
- d) Debugging
- e) None of these

**186. A word in a web page that, when clicked, opens another document.**

- a) Anchor
- b) URL
- c) Hyperlink
- d) Reference
- e) None of these

**187. The \_\_\_\_\_ manual tells you how to use a software program.**

- a) Documentation
- b) Programming
- c) Technical
- d) User
- e) None of these

**188. What disk is used to cold-boot a PC?**

- a) Setup disk
- b) System disk
- c) Diagnostic disk
- d) Program disk
- e) None of these

**189. The \_\_\_\_\_ tells the computer how to use its components.**

- a) Utility
- b) Network
- c) Operating system
- d) Application program
- e) None of these

**190. A \_\_\_\_\_ contains buttons and menus that provide quick access to commonly used commands.**

- a) Menu bar
- b) Tool bar
- c) Window
- d) Action bar
- e) None of these

**191. Numbers in table columns are usually -**

## Computer Awareness Question Bank : v4

---

- a) Right-aligned
- b) Left-aligned
- c) Justified
- d) Centered
- e) None of these

**192. The \_\_\_\_\_ of software contains lists of commands and options.**

- a) Menu bar
- b) Title bar
- c) Formula bar
- d) Toolbar
- e) None of these

**193. To access a mainframe or supercomputer, users often use a \_\_\_\_\_.**

- a) Terminal
- b) Node
- c) Desktop
- d) Handheld
- e) None of these

**194. By default, your documents print in \_\_\_\_\_ mode.**

- a) Landscape
- b) Portrait
- c) Page setup
- d) Print view
- e) None of these

**195. What characteristic of read-only memory(ROM) makes it useful?**

- a) ROM information can be easily updated.
- b) ROM provides very large amounts of inexpensive data storage.
- c) Data in ROM is nonvolatile, that is, it remains there even without electrical power.
- d) ROM chips are easily swapped between different brands of computers.
- e) None of these.

### Answers

1. Computer
2. A computer that is connected to the internet
3. Modem
4. Assembly
5. COBOL
6. Both 1 & 2
7. Basic input/output
8. Derfrag
9. Unix
10. All of the above
11. Auto formatting
12. A Presentation design template
13. Edit the slide master
14. WAN
15. Client /server network system
16. A plain text mail
17. Kaspersky
18. Spam
19. Command.com
20. Blaster
21. Mother Board crash
22. Spam
23. Lotus 1-2-3
24. LAN
25. Mailbox
26. Browser
27. HTML
28. Virus Attacks
29. Anti virus program
30. Network Server
31. Micro processor
32. High level language
33. Registers
34. Control, Alt
35. Peripheral
36. Control Unit
37. Navigation
38. Magnetic Ink Character Recognition
39. Fixed modem
